

# Private Treatment Pricing Guide

## West End Dental Llangefni

Effective 15 April 2019

For Invisalign® Treatments please refer to our separate pricing guides, available from our Customer Care Team.

### Our approach to pricing

No two patients are the same. Neither are treatments.

For many services, we can and do offer a fixed fee. But for other treatments, this simply isn't possible.

With so many materials, treatment methods, approaches and desired outcomes it is difficult to provide an accurate estimate without first meeting and consulting with you.

In our experience, the most effective and successful treatments have three things in common: a high quality assessment and diagnosis, an informed patient and a common understanding between clinician and patient of the desired outcome.

That's why we normally ask you to attend a consultation and discussion prior to treatment. We often don't quote for a treatment without seeing a patient, because we can't.

You can be assured of a detailed estimate before your treatment commences. *For more complex procedures this includes an extensive plan and report.* This allows for treatment which is bespoke to you and your individual needs.

Our prices reflect the quality of care we provide and the level of investment needed to sustain this. Patients can take advantage of our Membership scheme to spread the cost of their routine dental care, and 0% APR Representative finance is available on many treatments.

We believe in transparency and consistency in fees. Our Pricing Guide sets out the fees we charge for our most common treatments and services. In many cases, the fee will depend on the precise requirements of the patient and where this is the case fees are indicated as 'From'.

## Consultations & Diagnostic Services

	Standard Fee	Gold & Diamond Members	Platinum Members
<b><u>Initial Consultation</u></b>

# Dental Implants

Available in our Colwyn Bay practice only.

	Standard Fee	Gold & Diamond Members	Platinum Members
<b>Simple Treatment Planning</b>			
Our simple treatment planning service consists of your Initial Consultation with an implantologist, an Orthopantomogram (OPG) digital x-ray and a report following your appointment. This is normally sufficient for simple cases such as single tooth replacements.	£175.00	£175.00	£175.00
<b>Complex Treatment Planning</b>			
This planning service includes additional consultation(s) following the initial 45-minute appointment, combined with a more detailed report. The number of consultations and nature of the report will depend on the complexity of your treatment. This service is normally sufficient for more advanced cases such as multiple tooth replacement and straightforward denture stabilisation treatments. The cost of a single sectional or single jaw Computerised Tomography Cone-Beam (CBCT) scan and clinical report is included.	£395.00	£395.00	£395.00
	£295.00 if treatment proceeds	£295.00 if treatment proceeds	£295.00 if treatment proceeds
<b>Large Complex Treatment Planning</b>			
This planning service is used for particularly complicated treatments. It includes a Computerised Tomography Cone-Beam (CBCT) assessment of your full jaw. It will typically involve multiple visits, perhaps over a number of weeks, and reflects the time needed to discuss your circumstances as well as assemble the required radiograph and diagnostic reports. This service is suitable for the most complex cases such as full arch reconstructions or patients presenting with particularly difficult or chronic conditions.	£495.00	£495.00	£495.00
